VINTAGE The 2021 growing season began cooler than usual with occasional light rains, bringing budbreak slightly later than expected. Spring and summer were mostly dry, but without the long, lingering heatwaves of recent years, allowing fruit to ripen at a normal rate. Higher temperatures in the late summer and early fall brought an earlier and faster harvest to ensure all fruit was picked at optimum ripeness. Crop yields were lighter than average, but with intense flavor profiles and outstanding quality.

WINEMAKING Harvested in the early morning hours from September 29 to October 15, the fruit was rigorously hand sorted, de-stemmed and cold soaked for 24 hours. It remained on the skins for 21 days, then was gently drained to 50% new and 50% neutral French oak barrels for 20 months.

VINEYARD Sourced from blocks 3A, 3B, 10D, 15 and 16 ranging from 450 to 600 feet in elevation, the fruit for this red blend is grown in a mix of clay, gravelly and sandy loam soils. Merlot blocks 3A and 3B contribute red fruit and savory characters, Cabernet Sauvignon blocks 10D and 15 bring dark fruit notes, chocolate undertones and exotic spice, Cabernet Franc block 16 offers a lush mouthfeel and hints of black pepper, and Malbec block B-8 provides structure and well-balanced acidity.
