VINTAGE The 2023 growing season kicked off in Knights Valley with above-average winter rains, which replenished reservoirs and rejuvenated soils. While cooler temperatures meant a slow start, the abundant rainfall fostered lush canopy development in late spring and summer that led to balanced yields at harvest. Picking started slightly later than usual but finished by mid-October, delivering exceptional fruit with deeply intense flavors.

MONTHLY AVERAGE HIGH/LOW TEMPERATURES AND RAINFALL

WINEMAKING Harvested in the early morning hours from October 13 to 31, the fruit was rigorously hand sorted, de-stemmed and cold soaked for 24 hours. It remained on the skins for 21 days, then was gently drained to 50% new and 50% neutral Darnajou, Taransaud Sylvain, Saury, Seguin Moreau, Orion and Bel Air French oak barrels for 20 months.

VINEYARD Sourced from blocks 4A, 4B, B-8, 3B, B-3 and I6, ranging from 450 to 500 feet in elevation, the fruit for this red blend is grown in a mix of clay, gravelly and sandy loam soils. Cabernet Sauvignon blocks 4A and 4B bring dark savory tones, Malbec block B-8 provides blue and purple fruit and well-balanced acidity, Merlot blocks 3B and B-3 contribute dark red fruit and structure, and Cabernet Franc block I6 offers a lush mouthfeel and hints of black pepper.
